ADVANCED INVESTMENT HOLDINGS LIMITED

REPORT OF THE DIRECTORS

For the year ended 30 September 2024

The Directors present the annual report and the audited financial statements ("the financial statements") of Advanced Investment Holdings Limited ("the Company") for the year ended 30 September 2024.

Principal Activity

The principal activity of the Company is that of a limited life investment holding company.

The Company is a Guernsey Registered closed-ended investment company and is subject to the Registered Collective Investment Scheme Rules and Guidance 2021. The Company is listed on the Bermuda Stock Exchange.

Going concern

Under the terms of the Company's prospectus, following a successful fund raising in December 2020, the life of the Company was extended for a period of 5 years from 23 December 2020. At an Extraordinary General Meeting of the Company to be held in 2025, shareholders will be asked to approve a special resolution to extend the life of the Company for a further period from the Company's current termination date, and to authorise the Directors to seek to raise additional capital through a secondary fund raising. Should shareholders not approve the resolution, or should insufficient capital be raised for the proposed new investment term, the Company will terminate on 23 December 2025 and its shares be redeemed. Although the likelihood is extremely strong of the resolution being passed, sufficient capital being raised, and therefore the Company continuing in existence beyond 23 December 2025, we acknowledge that a material uncertainty related to going concern exists as a result of the shareholder vote not yet being approved.

During the year, the war in Ukraine and the heightened level of conflict in the Middle East have continued to impact upon financial markets. However, the Board does not consider that there will be any significant impact on the Company's ability to continue as a going concern, for the following reasons:

- The Company is closed-ended, as a result of which the Board has the power to decline requests to redeem shareholdings if it believes that such redemptions are not in the best interests of the Company;
- Should the Board agree to a redemption, it would be offered to the investor at a price that the assets can be redeemed in the market. The Company itself would not be exposed to any losses that may arise;
- The Company is less exposed to the risk of widespread investor sell-off, because of the defensive nature of the Company's investment profile. Other than through default or insolvency of the debt provider, investors will be aware that a key element of the Company's investment strategy is to provide capital protection, therefore limiting their exposure to falls in the markets of the kind that are currently being experienced; and
- During the year and subsequent to the reporting date, the Board has received no enquiries, either directly or via the Investment Adviser, from investors wishing to redeem their shareholdings at any other time other than at the predetermined planned date of redemption.

As a result of the above considerations, and as the Company has sufficient working capital and adequate resources to continue in operations and meet its liabilities as they fall due for the foreseeable future, the Directors have determined that these financial statements should be prepared on a going concern basis.

Results and Dividends

The Statement of Comprehensive Income is set out on page 10. The Directors do not propose a dividend for the year (2023: £Nil).

Directors

The Directors of the Company during the year and to the date of this report are detailed below.

Janine Lewis

David Stephenson

Keri Lancaster-King

Directors' and Other Interests

Janine Lewis and Keri Lancaster-King are Directors of the Company and directors of Sanne Fund Services (Guernsey) Limited ("SFSG"), the Company's Administrator, Secretary, Custodian and Registrar, and David Stephenson is a Director of the Company and an employee of SFSG.

ADVANCED INVESTMENT HOLDINGS LIMITED

REPORT OF THE DIRECTORS (continued) For the year ended 30 September 2024

Directors' and Other Interests (continued)

During the year, no Director has had any beneficial interest in the shares of the Company.

No Director of the Company, or Investec Corporate and Institutional Banking ('ICIB'), the Investment Advisor to the Company, holds any right, either contingent or otherwise, to subscribe for shares in the Company.

Details of fees paid to SFSGL and ICIB during the year are contained in notes 5 and 17 to these Financial Statements.

No fees were paid to the Directors by the Company during the year.

Historical Results

The results and assets and liabilities of the Company during the life of the Company are as follows:

	Total Assets £	Total Liabilities £	Profit/(Loss) £
Year ended 30 September 2024	56,348,450	72,238	10,926,079
Year ended 30 September 2023	50,495,697	56,704	5,153,479
Year ended 30 September 2022	49,591,272	27,624	(3,081,790)
Year ended 30 September 2021	44,029,375	11,908	3,419,557
Year ended 30 September 2020	30,876,734	15,000	(2,632,391)

Investment Portfolio

The Company's investment portfolio comprises the following investments:

	Percentage of portfolio	Cost £	Market Value £
Investec Bank Limited Credit Linked Zero Coupon Deposit	69.6%	32,167,025	38,674,668
UBS AG Index Option	30.4%	5,654,562	16,882,138
		<u>37,821,587</u>	<u>55,556,806</u>

Investec Bank Limited and UBS AG are providers of financial services.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Annual Report and financial statements in accordance with The Companies (Guernsey) Law, 2008.

Company law requires the Directors to prepare financial statements for each financial year that give a true and fair view of the state of affairs of the Company as at the end of the financial year, and of the profit or loss for the financial year.

Under that law, the Directors have prepared the financial statements in accordance with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss for that period. In preparing these financial statements, the Directors are required to:

- select suitable appropriate accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether IFRSs have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

ADVANCED INVESTMENT HOLDINGS LIMITED

REPORT OF THE DIRECTORS (continued) For the year ended 30 September 2024

Statement of Directors' Responsibilities (continued)

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with The Companies (Guernsey) Law, 2008 and with The Protection of Investors (Bailiwick of Guernsey) Law, 2020. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors confirm that:

- so far as each Director is aware, there is no relevant audit information of which the Company's auditor is unaware;
- each Director has taken all the steps he ought to have taken as a Director to make himself aware of any relevant audit information and to establish that the Company's auditor is aware of that information; and
- the financial statements give a true and fair view and have been prepared in accordance with IFRS, with The Companies (Guernsey) Law, 2008 and with The Protection of Investors (Bailiwick of Guernsey) Law, 2020.

Independent Auditor

Grant Thornton Limited ("GT") has expressed its willingness to continue in office and a resolution to re-appoint GT as auditor to the Company will be proposed at the forthcoming Annual General Meeting.

By Order of the Board

Keri Lancaster-King
Director
20 December 2024

INDEPENDENT AUDITOR'S REPORT

To the members of Advanced Investment Holdings Limited

Opinion

We have audited the financial statements of Advanced Investment Holdings Limited (the "Company") for the year ended 30 September 2024, which comprise the Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity, Statement of Cash Flows, and Notes to the financial statements, including material accounting policy information. The financial statements framework that has been applied in their preparation is applicable law and IFRS Accounting Standards as issued by the International Accounting Standards Board.

In our opinion, the financial statements:

- give a true and fair view of the financial position of the Company as at 30 September 2024, and of its financial performance and its cashflows for the year then ended;
- are in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board; and
- comply with the Companies (Guernsey) Law, 2008.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and applicable law. Our responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the financial statements in Guernsey, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw attention to note 2 in the financial statements which states that under the terms of the Company's prospectus, the life of the Company is due to terminate on 23 December 2025. As noted in note 2, these events or conditions, along with the other matters as set forth in note 2, indicate that a material uncertainty exists that may cast significant doubt in the Company's ability to continue as a going concern.

Our opinion is not modified in respect of this matter.

Other information in the Annual Report

The directors are responsible for the other information. The other information comprises the information included in the Annual Report and Audited financial statements, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on pages 5 and 6, the Directors are responsible for the preparation of the financial statements which give a true and fair view in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

The engagement partner on the audit resulting in this independent auditor's report is Jeremy Ellis.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with section 262 of the Companies (Guernsey) Law, 2008. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Companies (Guernsey) Law, 2008 requires us to report to you if, in our opinion:

- proper accounting records have not been kept by the Company; or
- the Company's financial statements are not in agreement with the accounting records; or
- we have not obtained all the information and explanations, which to the best of our knowledge and belief, are necessary for the purposes of our audit.

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 September 2024

1. GENERAL INFORMATION

Advanced Investment Holdings Limited (“the Company”) is a company incorporated and domiciled in Guernsey under The Companies (Guernsey) Law, 2008. The address of the registered office is given on page 3. The principal activity of the Company and its operations are detailed on page 4.

2. MATERIAL ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Company's financial statements.

Basis of preparation

The financial statements of the Company have been prepared in accordance with IFRS Accounting Standards ('IFRS') as issued by the International Accounting Standards Board.

The financial statements have been prepared on the historical cost basis, except for the revaluation of certain financial instruments measured at fair value.

Going concern

Under the terms of the Company's prospectus, following a successful fund raising in December 2020, the life of the Company was extended for a period of 5 years from 23 December 2020. At an Extraordinary General Meeting of the Company to be held in 2025, shareholders will be asked to approve a special resolution to extend the life of the Company for a further period from the Company's current termination date, and to authorise the Directors to seek to raise additional capital through a secondary fund raising. Should shareholders not approve the resolution, or should insufficient capital be raised for the proposed new investment term, the Company will terminate on 23 December 2025 and its shares be redeemed. Although the likelihood is extremely strong of the resolution being passed, sufficient capital being raised, and therefore the Company continuing in existence beyond 23 December 2025, we acknowledge that a material uncertainty related to going concern exists as a result of the shareholder vote not yet being approved.

During the year, the war in Ukraine and the heightened level of conflict in the Middle East have continued to impact upon financial markets. However, the Board does not consider that there will be any significant impact on the Company's ability to continue as a going concern, for the following reasons:

- The Company is closed-ended, as a result of which the Board has the power to decline requests to redeem shareholdings if it believes that such redemptions are not in the best interests of the Company;
- Should the Board agree to a redemption, it would be offered to the investor at a price that the assets can be redeemed in the market. The Company itself would not be exposed to any losses that may arise;
- The Company is less exposed to the risk of widespread investor sell-off, because of the defensive nature of the Company's investment profile. Other than through default or insolvency of the debt provider, investors will be aware that a key element of the Company's investment strategy is to provide capital protection, therefore limiting their exposure to falls in the markets of the kind that are currently being experienced; and
- During the year and subsequent to the reporting date, the Board has received no enquiries, either directly or via the Investment Adviser, from investors wishing to redeem their shareholdings at any other time other than at the predetermined planned date of redemption.

As a result of the above considerations, and as the Company has sufficient working capital and adequate resources to continue in operations and meet its liabilities as they fall due for the foreseeable future, the Directors have determined that these financial statements should be prepared on a going concern basis.

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 September 2024

2. MATERIAL ACCOUNTING POLICIES (continued)

Adoption of amended standards

The following relevant amended standard has been applied in these Financial Statements:

- IAS 1 (amended), 'Presentation of Financial Statements' – (amendments relating to the disclosure of accounting policies, effective for accounting periods commencing on or after 1 January 2023); and
- IAS 8 (amended), 'Accounting Policies, Changes in Accounting Estimates and Errors' – (clarifying how companies should distinguish changes in accounting policies from changes in accounting estimates, effective for accounting periods commencing on or after 1 January 2023).

In the opinion of the Directors, the adoption of these amended standards has had no material impact on the Financial Statements of the Company.

Amended standards and interpretations not yet adopted

The following relevant standards, which have not been applied in these Financial Statements, were in issue at the reporting date but not yet effective:

- IAS 1 (amended), 'Presentation of Financial Statements' – (amendments relating to the classification of liabilities, effective for accounting periods commencing on or after 1 January 2024); and
- IFRS 18 "Presentation and Disclosures in Financial Statements", effective for periods commencing on or after 1 January 2027.

The International Sustainability Standards Board ("ISSB") published the following Sustainability Disclosure Standards in June 2023, effective for accounting periods commencing on or after 1 January 2024:

- IFRS S1, 'General requirements for Disclosure of Sustainability-related Financial Information'; and
- IFRS S2, 'Climate-related Disclosures'.

The purpose of both standards is to provide information that is useful to primary users of general purpose financial reports in making decisions relating to providing resources to the entity.

In the opinion of the Directors, the adoption of these new and amended standards will have no material impact on the Financial Statements of the Company.

Financial assets - classification

Under IFRS 9, the classification and measurement of financial assets is driven by the entity's business model for managing the financial assets and the contractual cash flow characteristic of those financial assets.

The Company has determined that it has two distinct business models, as follows:

(i) To invest in a debt instrument issued by Investec Bank Limited. Under IFRS 9, financial assets that are debt instruments may be classified as either (a) amortised cost, (b) fair value through other comprehensive income or (c) fair value through profit and loss ("FVTPL"). The purpose of the Company's investment in the debt instrument is to collect the contractual cashflows of solely payments of principal and interest arising on maturity, which will provide capital protection for investors in the Company, and accordingly, the Company has determined that the investment should be classified as an investment at amortised cost.

(ii) To invest in an option linked to a basket of indices, in order to provide investors with a potential upside on their investment. Under the terms of IFRS 9, the option is automatically classified as an investment at FVTPL.

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 September 2024

2. MATERIAL ACCOUNTING POLICIES (continued)

Financial assets - recognition and subsequent measurement

Purchased financial assets are recognised on trade date, being the date on which the Company irrevocably commits to purchase the asset.

All investments are measured initially at fair value net of transaction costs, except where the investment will subsequently be measured at FVTPL. Transaction costs relating to the acquisition of investments at FVTPL are expensed as incurred in the Statement of Comprehensive Income.

After initial recognition, the Company's Option investment is measured at FVTPL. Fair value is calculated using quoted market prices, independent appraisals, discounted cash flow analysis or other appropriate valuation models at the reporting date. Changes in the fair value of financial assets at FVTPL are recognised in other gains/(losses) in profit or loss in the Statement of Comprehensive Income as applicable.

After initial recognition, the Company's debt instrument is measured at amortised cost using the effective interest rate method. Interest income from this financial asset is included in profit or loss. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses, including expected credit losses at initial recognition and changes to expected credit losses at each reporting date to reflect changes in credit risk since initial recognition, are presented as a separate line item in profit or loss in the Statement of Comprehensive Income.

All gains or losses are recognised in the period in which they arise.

Investments are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

Liquid resources

Liquid resources comprise cash and cash equivalents and long-term deposits. Cash and cash equivalents comprises bank balances and short term deposits with an original maturity of three months or less. Deposits with an original maturity of greater than three months are classified as long-term deposits.

Trade and other receivables

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value. The Company holds the receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method.

The Company applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables and contract assets.

Financial liabilities

Financial liabilities, other than those at FVTPL, are measured at amortised cost using the effective interest method.

Interest income

Interest income on financial assets at amortised cost is calculated using the effective interest rate method and recognised in profit or loss.

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 September 2024

2. MATERIAL ACCOUNTING POLICIES (continued)

Foreign exchange

Items included in the financial statements of the Company are measured in the currency of the primary economic environment in which the Company operates (the "functional currency"). Until the Company's new investment period commenced on 23 December 2020, the Directors determined that the functional currency of the Company was Pound Sterling, as it was the currency in which the Company's capital was raised, its investments denominated, and the majority of its expenses incurred. Subsequent to 23 December 2020, the Directors have determined that the functional currency is US Dollars, as in the current investment period, it is the currency in which the majority of the Company's capital was raised, its investments denominated, and the majority of its expenses incurred. For consistency with previous annual financial statements, the Directors have selected Pound Sterling as the presentational currency of the Company.

Foreign currency assets and liabilities are translated into Sterling at the rate of exchange ruling on the reporting date. Foreign currency transactions are translated into the functional currency of US Dollars at the rate of exchange ruling at the date of the transaction, and then translated into Sterling at the average exchange rate for the reporting period. Foreign exchange gains and losses are recognised in the Statement of Comprehensive Income in the period in which they arise. Differences arising on translation from the functional currency to the presentation currency are recognised in other comprehensive income in the period in which they arise and are taken to the translation reserve.

Expenses

Expenses are accounted for on an accruals basis. All expenses are charged to the Statement of Comprehensive Income, except for expenses incurred in relation to the launch of the Company, which have been charged against share premium.

Taxation

The Company is exempt from Guernsey income tax under the Income Tax (Exempt Bodies) (Guernsey) Ordinance 1989 and is charged an annual exemption fee of £1,600 (2023: £1,200).

3. SEGMENT REPORTING

The Board of Directors considers that the Company is engaged in a single segment of business, being the holding of investments. The Board considers that it is the Company's Chief Operating Decision Maker.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results could differ from such estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate was revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The areas involving significant estimates or judgements are:

- Classification of and subsequent measurement basis of financial instruments – see note 2 (Financial assets – classification);
- Estimated fair value of financial assets measured at FVTPL – see note 7; and
- Impairment of financial assets measured at amortised cost - see notes 8, 11 and 18(ii).

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 September 2024

5. SIGNIFICANT AGREEMENTS

The following significant agreements have been entered into by the Company:

Administration, Custodian and Secretarial Agreement

Under the Administration, Custodian and Secretarial Agreement, the Company has agreed to pay or procure to be paid to the administrator, for its services as administrator, secretary, custodian and registrar, a fee of 0.11% (2023: 0.11%) per annum of the Company's funds (as reduced by any redemptions of A or B Class Shares prior to the Redemption Date, which attract a redemption fee of 0.5% of the value of the redemption). In addition the administrator is entitled to receive interest earned by the Company on the unpaid element of the fees. See notes 9, 11, 12 and 17 for details of administration fees and interest paid in the year and balances outstanding at the year end.

Investment Advisory Agreement

Under the Investment Advisory Agreement, the Company has agreed to pay or procure to be paid to the advisor, for its services as advisor, a fee of 0.60% (2023: 0.60%) per annum of the Company's funds (as reduced by any redemptions of A or B Class Shares prior to the Redemption Date, which attract a redemption fee of 0.5% of the value of the redemption). In addition the advisor is entitled to receive interest earned by the Company on the unpaid element of the fees. See notes 9, 11, 12 and 17 for details of investment advisory fees and interest paid in the year and balances outstanding at the year end.

Distribution Agreement

Under the Distribution Agreement, the Company has agreed to pay or procure to be paid to the Distributors a fee of 0.60% (2023: 0.60%) per annum of that portion of the Company's funds that is derived from the subscription amount subscribed for by Subscribers introduced by the Distributor (as reduced by any redemptions of such A or B Class Shares prior to the Redemption Date). Investec Corporate and Institutional Banking, the Company's Investment Advisor, is also one of a number of Distributors for the Company. See notes 9 and 11 for details of distribution fees paid in the year and balances outstanding at the year end.

All fees described above are payable annually in advance on the anniversary of the Trade Date (the date of investment of the Company's funds) each year until the Termination Date (the date of compulsory redemption of the Company's A and B Class Shares).

6. INTEREST INCOME

	2024	2023
	£	£
Interest on investments at amortised cost	1,877,627	1,887,215
Bank interest	30,331	43,716
	<u>1,907,958</u>	<u>1,930,931</u>

The effective interest rate used for calculating the interest on the investment at amortised cost is 4.8149% (2023: 4.8149%).

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 September 2024

7. INVESTMENTS AT FAIR VALUE THROUGH PROFIT AND LOSS	2024	2023
	£	£
UBS AG Index Option		
Fair value brought forward	8,523,380	5,138,879
Fair value adjustment	9,637,886	3,874,313
Translation difference	<u>(1,279,128)</u>	<u>(489,812)</u>
Fair value carried forward	<u>16,882,138</u>	<u>8,523,380</u>

The UBS AG Index Option (the "UBS Option") is a Call Option referenced to the S&P 500 index (40%), the Euro Stoxx 50 index (30%), the Nikkei 225 Index (15%) and the MSCI Emerging Markets Index (15%).

The Directors determine the fair value of the UBS Option based on valuations provided by UBS AG. These valuations are calculated using a formula specified in the Option contract, which is based on the movements in the closing price of the above index from the issue date of the Option to the reporting date.

The UBS Option has been classified as a level 2 investment in the fair value hierarchy, as the valuation is derived from observable inputs other than quoted prices in an active market (see note 18(iv)). The key inputs to the valuation were the notional value of the Option of USD 54,929,451 (2023: USD 54,929,451) and the published bid price of the Option of 41.19% (2023: 18.94%) as at 30 September 2024. The key inputs to the published bid price of the Option were the closing prices as at 30 September 2024 of the S&P 500 Index (5,762.48 (2023: 4,288.05)), Euro Stoxx 50 Index (5,000.45 (2023: 4,174.66)), Nikkei 225 Index (37,919.55 (2023: 31,857.62)) and MSCI Emerging Markets Index (45.86 (2023: 37.95)).

8. INVESTMENTS AT AMORTISED COST	2024	2023
	£	£
Investec Bank Limited Credit Linked Zero Coupon Deposit		
Carrying value brought forward	40,513,494	42,237,359
Interest	1,877,627	1,887,215
Translation difference	<u>(3,716,453)</u>	<u>(3,611,080)</u>
Carrying value carried forward	<u>38,674,668</u>	<u>40,513,494</u>

The Investec Bank Limited Credit Linked Zero Coupon Deposit (the "Credit Linked Deposit") is a deposit providing a fixed return over five years, subject to the credit performance of certain debt obligations issued by the Republic of South Africa. The Credit Linked Deposit has an effective interest rate of 4.8149% and matures on 23 December 2025.

The calculation of impairment, including expected credit losses, is based on assumptions about risk of default and expected loss rates. The Company uses judgments in making this assumption and selecting the inputs to the impairment calculation based on past history and existing market conditions (see note 18(ii)). The Company has assessed the investment in the Credit Linked Deposit for impairment and expected credit losses at the reporting date and has concluded that as at the year end no impairment or credit losses are expected over the life of the investment (2023: no impairment or credit losses were expected over the life of the Credit Linked Deposit).

As at 30 September 2024, the fair value of the Credit Linked Deposit was £37,127,965 (2023: £36,642,067).

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 September 2024

9. OPERATING EXPENSES	2024	2023
	£	£
Distributors' fees	259,241	272,280
Investment advisory fee	259,604	273,493
Administration fee	60,349	56,431
Interest expense	20,503	34,456
Audit fee	10,399	9,703
Listing and sponsorship fees	7,263	5,350
GFSC licence fee	4,954	3,866
Statutory fees	2,697	1,756
Professional indemnity insurance	1,771	1,417
Sundry expenses	292	2,231
	627,073	660,983

10. EARNINGS PER SHARE

The calculation of the basic and diluted earnings per share is based on the following data:

	2024	2023
	£	£
Earnings attributable to the Company's shares:		
Profit for purpose of calculation of basic and diluted earnings per share being profit for the year attributable to shareholders	10,926,079	5,153,479
Number of shares:		
Weighted average number of shares for the purpose of basic earnings per share	40,406.029	40,406.029
Earnings per share attributable to A Class shareholders	GBP 270.41	GBP 127.54
Earnings per share attributable to B Class shareholders	GBP 270.41	GBP 127.54

A weighted average number of shares has been calculated to enable users to gain a fairer understanding of the earnings generated per share through the period. The weighted average has been calculated with reference to the number of days shares have actually been in issue in the period since the Company commenced activities, and hence their ability to influence income generated.

11. TRADE AND OTHER RECEIVABLES	2024	2023
	£	£
Bank interest receivable	5,401	11,681
Prepaid administration fee	10,364	11,380
Prepaid distributors' fees	55,972	61,678
Prepaid investment advisory fee	56,530	62,069
Other debtors and prepayments	6,119	6,149
	134,386	152,957

The balance of trade and other receivables principally comprises prepayments, therefore a provision for expected credit losses is not required.

13. SHARE CAPITAL

Following the adoption of the Company's amended Articles of Incorporation, approved by special resolution on 17 September 2020, the Company no longer has a specified amount of authorised capital.

	2024	2023
	£	£
Issued:		
10 unpaid Management shares of £1.00 each	10	10
10,793.896 fully paid A Class shares of £0.01 each	108	108
29,612.133 fully paid B Class shares of US\$0.01 each	<u>218</u>	<u>218</u>
	<u>336</u>	<u>336</u>

A Class and B Class shares are entitled to 1 vote each at a general meeting of the Company. Under the terms of the Company's prospectus, and in the absence of a further special resolution to extend the life of the Company, the Company's shares will be redeemed and the Company will terminate on 23 December 2025. A Class and B Class shareholders are entitled to receive any dividends or distributions from the Company and any surplus arising on the winding up of the Company after the payment of creditors and redemption of the Management shares at their nominal value.

Management shares are entitled to 10,000 votes each at a general meeting of the Company. Management shares may only be owned by The Basket Trust (see note 17) or its nominee. Management shareholders are not entitled to receive any dividends or distributions from the Company nor any surplus arising on the winding up of the Company in excess of the nominal value of the Management shares.

14. SHARE PREMIUM

Movements in share premium are attributable to shareholders as follows:

2024	A Class	B Class	Total
	£	£	£
Balance brought forward	<u>10,778,351</u>	<u>29,594,269</u>	<u>40,372,620</u>

Foreign exchange translation losses	(1,142,843)	(3,135,291)	(4,278,134)
Balance carried forward	<u>1,267,311</u>	<u>3,476,762</u>	<u>4,744,073</u>

17. ULTIMATE CONTROLLING PARTY AND RELATED PARTY TRANSACTIONS

The immediate controlling party at the year end date is Praxis Trustees Limited as trustee of The Basket Trust, which owns the Management shares in the Company. There is no ultimate controlling party of the Company.

Sanne Fund Services (Guernsey) Limited ('SFSG'), the administrator of the Company, is deemed to be a related party, as Janine Lewis and Keri Lancaster-King (Directors of the Company) are directors of SFSG; and David Stephenson (a Director of the Company) is an employee of SFSG. During the year SFSG received £60,349 (2023: £56,431) for their services as administrator. At the year end date administration fees of £10,364 had been paid to SFSG in advance (2023: £11,380). At the year end date interest of £9,733 (2023: £7,382) on outstanding fees was payable to SFSG.

The Investment Advisor, Investec Corporate and Institutional Banking ("ICIB"), a division of Investec Bank Limited, and Investec Bank Limited itself, are deemed to be related parties. The balances and transactions during the year with Investec Bank Limited related to investments at amortised cost and are disclosed in note 8. During the year ICIB earned £259,604 (2023: £273,493) for their services as investment advisor. At the year end date advisory fees of £56,530 (2023: £62,069) had been paid to ICIB in advance and interest on outstanding fees of £53,205 (2023: £40,422) was payable to ICIB.

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 September 2024

18. FINANCIAL INSTRUMENT RISK FACTORS

The Company is exposed to market risk, credit risk and liquidity risk from the financial instruments it holds. The Company has a fixed modus operandi, as stated in its prospectus, which is to invest its capital in a zero coupon bond (or other structured product with similar characteristics) and an option or options on a specified index or basket of indices; and to retain a certain element of cash to cover expenses to be incurred over the specified period of its life. As a result of this, the Company's flexibility in dealing with the risks associated with these instruments is somewhat limited. However, the risk management policies that are employed by the Company to manage these risks are discussed below. There have been no changes to the Company's exposure to market risk, credit risk and liquidity risk; or its objectives, policies and procedures for managing such risks, since the prior year.

(i) Market risk

(a) Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the Company's functional currency of US Dollars. As at 30 September 2024, the Company is exposed to foreign exchange risk in relation to the following assets and liabilities:

	Source currency	2024	2023
		£	£
Cash and cash equivalents	Sterling	65,608	85,908
Trade and other payables	Sterling	(9,300)	(8,900)
		<u>56,308</u>	<u>77,008</u>

At 30 September 2024, the foreign currency exposure of the Company represented 0.1% (2023: 0.2%) of Equity Shareholder's Funds. The Company's policy is not to manage the Company's exposure to foreign exchange movements by entering into any foreign exchange hedging transactions. If the Pound Sterling exchange rate against US Dollar at the year end date had been 10% higher/lower, this would have resulted in an increase/decrease in the year end net asset value of £5,631 (2023: £7,701). The sensitivity rate of 10% is regarded as reasonable as this approximates to the level of volatility of Pound Sterling against the US Dollar during the year.

The Company had no other material currency exposures as at 30 September 2024 or 30 September 2023.

(b) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk on its cash and cash equivalents and long-term deposits and on interest payable on outstanding future fees. At 30 September 2024, the Company held cash and cash equivalents of £264,793 (2023: £456,203), which earn no interest (2023: no interest), and a long-term deposit of £392,465 (2023: £849,663), which earned interest at a rate of 4.95% (2023: 5.45%). At 30 September 2024, the Company had outstanding future fees payable of £292,216 (2023: £640,002), on which interest at a rate of 4.95% (2023: 5.45%) is payable.

Had these balances existed for the whole of the year and all other factors remained the same, the effect on the Statement of Comprehensive Income of an increase/decrease of 2% (2023: 2%) in short-term interest rates per annum would have been an increase of £7,301/decrease of £2,005 in total comprehensive income for the year (2023: increase of £13,317/decrease of £4,193). The sensitivity rate of 2.0% is regarded as reasonable as a result of the prevailing higher rates of interest rates globally, and in the context of the current US Fed Rate of 4.75%, the majority of the Company's cash being held in US Dollars.

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 September 2024

18. FINANCIAL INSTRUMENT RISK FACTORS (continued)

(i) Market risk (continued)

(b) Interest rate risk

The Company had no other material interest rate exposures as at either 30 September 2024 or 30 September 2023. The Company's Credit Linked Deposit is interest-bearing, however interest is calculated at a fixed rate (see notes 8 and 9) and is therefore not subject to interest rate risk.

(c) Price risk

Price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market. The Company's investments at fair value through profit and loss are directly affected by changes in market prices. The Company's investment in the Credit Linked Deposit is measured at amortised cost, and is therefore not subject to price risk.

Price risk is managed at inception by investing in a combination of two financial instruments: a holding of zero coupon bonds (or other structured product with similar characteristics) that should provide capital protection for investors; and a call option on an index or basket of indices that the investment advisor believes is most likely to provide positive performance during the life of the Company. In order to provide capital protection, the amount of the Credit Linked Deposit acquired is calculated with the intention that the maturing amount will be sufficient to guarantee that all investors who remain in the Company to maturity will at minimum get back the amount that they invested. The call option provides the potential for significant upside performance, should the relevant indices perform well, with the downside limited to loss of the initial option premium.

The investment premise of the Company involves participation in the potential upside afforded by the Option, whilst enjoying the capital protection afforded by the Credit Linked Deposit. Therefore, whilst the Board monitors the performance of the Option and Credit Linked Deposit, it is unlikely that the Board would consider redeeming these at any stage, other than in relation to the redemption of investors' shares. As a result, the management of price risk effectively occurs at the inception of the Company in the selection of investments, and is not an active ongoing process during the remainder of the life of the Company.

The investments at FVTPL expose the Company to price risk. The details are as follows:

	2024	2023
	£	£
UBS AG Index Option	<u>16,882,138</u>	<u>8,523,380</u>
	<u>16,882,138</u>	<u>8,523,380</u>

As at 30 September 2024, a 50 per cent increase/decrease in the published price of the Option would result in an increase/decrease in the Net Asset Value of the Company of £8,441,069 (2023: £4,261,690). The sensitivity rate of 50% is regarded as reasonable due to the potential volatility of European stock markets, to which the Option is linked, which is magnified slightly by the participation rate of 103.73% attached to the Option.

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 September 2024

18. FINANCIAL INSTRUMENT RISK FACTORS (continued)

(ii) Credit risk

Credit risk arises when a failure by counter-parties to discharge their obligations could reduce the amount of future cash inflows from financial assets on hand at the year end date. These financial assets include cash and cash equivalents, fixed deposits, debtors, investments at amortised cost and investments at FVTPL. The Company's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying value or fair value of these instruments.

The Company states in its Prospectus that it will invest in a debt instrument (the Credit Linked Deposit) issued by Investec Bank Limited ('IBL') and an option linked to a specified index or basket of indices, and provides extensive disclosure to shareholders of those instruments and the risks attached thereto. As a result of this, the Company's policy for managing the credit risk attached to the Company's financial assets is to monitor the credit rating of the relevant counterparty for any significant deterioration, without reference to an absolute range of credit ratings. In the event of there being any significant deterioration in the perceived creditworthiness of the counterparty to a point where shareholders' interest may be at risk, the Directors in their absolute discretion would consider the following courses of action: selling the relevant securities to third party purchasers and reinvesting the proceeds in the purchase of securities of another issuer, such that the new securities would replicate as closely as possible the terms and conditions of the original securities; and transferring cash to another banking institution. At initial recognition of the Credit Linked Deposit and the option, the Directors considered the credit risk attached to these instruments to be low, and this remains their view. The Directors would only seek to sell the relevant securities or transfer cash if they (in consultation with the investment advisor) consider that such would be in the best interests of the Company and its shareholders.

In accordance with this policy, the Board (in consultation with the investment advisor) has noted that the Fitch long-term credit rating of IBL as at 30 September 2024 was BB- (30 September 2023: BB-). As a result, the Directors and the investment advisor believe that it is not in the best interest of shareholders to attempt to unwind the Credit Linked Deposit prior to its maturity date on 23 December 2025, as they believe firstly that there has been no significant deterioration in the creditworthiness of IBL, and secondly that obtaining an alternative investment with an institution with a higher credit rating, particularly so close to maturity, could only be achieved on less favourable terms than those offered by the Credit Linked Deposit, which could affect the Company's ability to offer capital protection to shareholders on their investment.

The Company monitors the creditworthiness of its counterparties on an ongoing basis and considers a financial asset to be in default when the counterparty fails to make contractual payments within 60 days of when they fall due. No instances of default or significant changes to the Company's credit risk or expected loss rates have been identified in the last 12 months.

The majority of the Company's trade and other receivables consists of prepayments and there is no credit risk associated with these balances.

The Option is held with UBS AG, which has a Fitch long-term rating of A+ (2023: AA-). The cash and cash equivalents are held with Investec Bank (Channel Islands) Limited, which has a Fitch long term rating of A- (2023: BBB+).

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 September 2024

18. FINANCIAL INSTRUMENT RISK FACTORS (continued)

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet financial liability obligations as they fall due, which may cause financial losses to the Company. The Company places its cash and cash equivalents with financial institutions on a short-term basis in order to maintain a high level of liquidity. This ensures that the Company is able to complete transactions in a timely manner, thus minimising the Company's exposure to such losses.

The Board reviews the cash resources of the Company on an ongoing basis to ensure that sufficient monies are held on call account to meet the Company's short-term obligations. At 30 September 2024 the total balance of cash on call and on a short-term notice account was £264,793 (2023: £456,203). This is considered by the Board to be sufficient to meet all of the Company's short-term obligations.

The following table analyses the Company's financial liabilities, which will be settled on a net basis, into relevant maturity groupings based on the remaining period from the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

	Less than 6 months	6-12 months	1-5 years
	£	£	£
2024			
Trade and other payables	9,300	-	62,938

Net exposure	<u>8,900</u>	<u>-</u>	<u>47,804</u>

(iv) Fair value hierarchy

The following table analyses instruments carried at fair value, by level of the fair value hierarchy. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	Level 1	Level 2	Level 3	Total
	£	£	£	£
2024				
Investments at FVTPL	-	16,882,138	-	16,882,138
2023				
Investments at FVTPL	-	8,523,380	-	8,523,380

There have been no transfers between levels of the fair value hierarchy during the year.

ADVANCED INVESTMENT HOLDINGS LIMITED

NOTES TO THE FINANCIAL STATEMENTS (continued) **For the year ended 30 September 2024**

19. MANAGEMENT OF CAPITAL

The Company's capital comprises the funds it has raised through the issue of share capital.

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to ensure that the Company will be able to continue as a going concern, the Board continuously monitors forecast and actual cash flows and matches the maturity profiles of assets and liabilities. The Board has also considered the impact of the ongoing conflicts in Ukraine and the Middle East subsequent to the year end, and does not believe that these factors will have a significant impact on the Company's capital or its ability to continue as a going concern. The Company has no external borrowings.

Shareholders may be able to redeem their Shares prior to the Redemption Date, however such redemptions are wholly at the discretion of the Directors, and any request for redemption may be refused in whole or in part. No early redemptions will be permitted unless the Directors are satisfied that they have complied with all applicable law, including satisfaction of the solvency test as required by the Companies (Guernsey) Law, 2008. There have been no changes to the Company's objectives or policies and procedures for managing capital since the previous year end.

20. POST BALANCE SHEET EVENTS

There were no significant post year end events requiring disclosure in these financial statements.
